### PROTEST IS SENT U.S. BY ENGLAND

Great Britain's Request for Postponement Embarrasses State Department

Canadian Railway Interests Said to Be Deeply Involved in Legislation

WASHINGTON, July 11.—Great Britain's request that the enactment of the Panama Canal Administration bill be held in abeyance until Mr. Inez, the British charge, can present a note in behalf of his government, confronts Congress and the State Department with an extraordinary situation.

The request for delay has been communicated to the Senate Inter-oceanic canal committee. It came from the summer embassy at Kinsale, Maine, late yesterday, and was sent by Mitchell Inez, the charge, acting for Ambassador Bryce, who is in New Zealand.

While the reasons for the request are not stated, there is no doubt that the British government is concerned in the clause to grant free passage through the canal to American vessels in coastwise trade, and that clause relating to the passage of railroad-owned ships. The Canadian railway interests are deeply concerned in both, and it is thought that some of the representations will be made in their behalf.

**NOW IN COMMITTEE.**  
The canal bill now is in the Senate committee, with prospect of being soon reported, and will then go to conference with the House.

Members of Congress feel that if any Panama legislation is to be had it must be at this session of Congress. The exigencies that have arisen as the canal approaches completion make legislation necessary, if a permanent organization is to be set up on the canal zone to the best advantage. It was said today that members of both houses were not agreeable to much delay now.

**URGENT LEGISLATION.**  
Senator Brandegee has replied to the State Department that the legislation proposed is regarded as extremely urgent, and the Senate committee has planned to report the canal bill to the full Senate some time next week. That reply has been communicated by wire to Inez, and probably will have the effect to hasten the bill.

### King of Siam Seeks Agricultural Adviser

Wants Substitute for American Who Has Taught Him How Grass Grows.

WASHINGTON, July 11.—The king of Siam is searching for a good agricultural adviser to show the people of his country how to make farming profitable, according to information to the Department of Agriculture here. John C. Barnett, a young American, who has filled the position for several years, desires to return to this country, hence the vacancy.

### Canada Refuses to Be Mere British Adjunct

Premier Borden Declares Country Must Have Voice in Defense Policy.

LONDON, July 11.—The Canadian premier, Robert L. Borden, a guest of honor at a banquet by the Colonial Institute last night, declared Canada did not propose to be a mere adjunct to the British empire. He asserted to the single most important principle in the policy shaping the defense of the empire.

### 'NO JOKE,' DECLARES LORIMER

Illinois Senator Takes Senate Floor to Defend Himself From Attack

Scores Newspapers of Windy City While Solons Pay Close Attention

WASHINGTON, July 11.—Senator Lorimer began today his speech defending his right to his seat. He followed Senator Reed of Missouri, who made a bitter attack upon him and his election by the Illinois legislature.

Final action not later than tomorrow was in prospect when the Senate resumed consideration of the case today. This is the fifth session of the "Legislative day of July 6," the date set for the vote.

Senators Lea of Tennessee, and Thornton of Louisiana, were scheduled to discuss the case before the Illinois senator began his defense.

The Senate chamber filled up slowly under the call for a quorum, but only fifty-six senators answered to their names. The Senate galleries were not half filled.

As Senator Lorimer began his speech he read from manuscript and his voice was for the first few sentences somewhat indistinct. He declared he proposed to give the Senate an insight into the character of the men who, he said, had tried to ruin him.

"It is true that the Senate has the right to deny me a seat in this body," he began, "on the flimsiest pretext or on no pretext at all. I intend to show that no vote cast for me was influenced by fraud."

**NOT A JOKE.**  
"Mr. President," he said, in measured tones, "this is no joke. This is a solemn and serious question. If the Senate decides to follow the views of the minority of this investigating committee it will be a travesty on civilized jurisprudence, a mockery of justice. It will be a declaration that the Senate has decided to follow the red flag; that it has become the advocate of anarchy; that it has adopted the doctrine of the recall as advocated by its arch champion."

Senator Lorimer departed from his manuscript for a moment to refer to the Chicago newspapers. He declared certain of the newspaper owners and publishers would be in prison if the public prosecutors had been active.

The Senate gave the Illinois senator close attention. He spoke slowly and with great emphasis. Finally he discarded the manuscript.

### ROSE WINS WEIGHT PUT

Americans Take Eight Out of Eleven First Places in the Hurdles

200-Meter Race Is Won by Craig of Detroit, With Lip-pincott Second

STOCKHOLM, July 11.—American athletes added further points to their score in the Olympic games by winning the final of the 200 meter flat race and also securing second place in that event.

United States, 72; Sweden, 56; Great Britain, 47; Germany, 23; France, 19; Finland, 19; South Africa, 11; Denmark, 11; Norway, 10; Italy, 5; Hungary, 4; Bohemia, 4; Russia, 3; Austria, 3; Greece, 3; Canada, 3; Holland, 2; Australia, 2.

STOCKHOLM, July 11.—American athletes added further points to their score in the Olympic games by winning the final of the 200 meter flat race and also securing second place in that event.

Other nations came unexpectedly to the fore in these two events, England scoring a point in the 200 meter flat race when W. R. Applegarth obtained third place. Finland improved its position in the list of winners when E. Niklander got third place in the weight putting.

The program of the sixth day of the Olympic games was completed today.

### HEAT WAVE CONTINUES BLAST

Chicago Gets Some Relief, but Other Eastern Cities Sweeter

Thunder Showers Along the Mississippi Fail to Lower Temperature

WASHINGTON, July 11.—Little general relief from the torrid weather of the last few days was in sight in any part of the country today. While there was a prospect it would be slightly cooler in the northeastern states tonight, the forecasters say the hot wave will continue into the fore part of next week.

There has been some moderation in the temperature over the north central states in the lake region. In the north and extreme west it has grown warmer, but in the remainder of the country there has been little change.

Local thunder showers east of the Mississippi river continue, but bring no cool weather. Unsettled weather will continue tomorrow in the lower lake region and Atlantic states, but probably without much rain except in Arkansas, Missouri, North Dakota and Western Montana. A brief respite from the heat is probable tonight in the New England and middle Atlantic states and states in the lake region.

**WELCOME BREEZE.**  
CHICAGO, July 11.—A cool breeze from the north caused a welcome drop in the mercury here during the night and, continuing today, its coolness even forced closing of windows in the upper stories of skyscrapers.

**Woman Faces Second  
Murder Charge Trial**  
Accused of Killing Her Third Husband and a Son-in-Law.

MOBILE, Ala., July 11.—For the second time in her life Mary T. Godau, an aged woman, was placed on trial for murder today. This time she is accused of having killed her son-in-law, Fred Wasserleben, last December. She declared she shot in self-defense. The prosecution will attempt to show that the man was killed for the life insurance he carried. The first time Mrs. Godau faced a capital charge was on an accusation that she killed her third husband.

### Two Drowned; Two Saved From Death

Member of Party Out for Boat Ride Is the Hero of Tragedy.

TEMPLE, Tex., July 11.—When a boat carrying five persons was overturned in the Lampasas river late last night, Charles Holloway, one of those in the boat, rescued two of the party. Two others were drowned. The victims were Frank Kregan and Mrs. Charles Holloway. Mrs. Kregan was pulled from the water but it is feared Mrs. Kregan cannot live. All were residents of west Texas.

### Cuba Regains Usual Peaceful Composure

Suspension of General Guarantees to Be Ended in Oriente.

HAVANA, July 11.—General Mon-teagudo reports to President Gomez the province of Oriente as pacified that he considers it unnecessary to continue the suspension of general guarantees.

ROBERT BRADLEY, THE YOUTH WHO HAS CONFESSED THAT HE KILLED SPECIAL OFFICER C. A. WILLIAMS, APRIL 21 LAST.

### MINERS IN PIT KILLED BY EXPLOSION OF GAS Rescue Party Unable to Penetrate Shaft on Account of Fumes

MOONSVILLE, W. Va., July 11.—Three miners are known to have been killed, two seriously injured and four others imprisoned by gas explosion in the Panama mine of the Sen Franklin Coal Company here today. A rescue party penetrated the workings and returned with William Hupp and Joe Minalini, miners, who were so badly burned it is feared they cannot survive. Another rescue party was sent into the mine later in the hope that more were alive, but gas was so strong that the rescuers were driven back. The Pittsburgh station of the bureau of mines was notified by telephone and Chief J. W. Paul ordered the rescue car at Pittsford, Pa., to proceed to Moonsville.

### Honduras Closes Gate; No Refuge Now for Reprobate

WASHINGTON, July 11.—Those who flee justice in the United States will hereafter find no place on the Western Hemisphere safe from extradition. By signing an extradition treaty with Honduras today the State Department closed the last refuge.

### Buffalo to Oust Liberty From Face of New Nickel

WASHINGTON, July 11.—The accepted plan for the nickel face to replace the Liberty Bell design on the United States nickel was announced today by the Treasury Department. The new design will feature the Buffalo.

### ADMITTS HE SHOT DOWN OFFICER

Hobo Never Inquired to Ascertain if Wounds Proved Fatal

Brother of the Dead Man Swears to Warrant Charging Murder

Full confession of the details of the murder of Special Policeman Charles Williams in East Oakland last April was made this morning by Robert Bradley, "black sheep" of an old Maine family, professional tramp, whose identification as the murderer by Inspector William McMorley and Julius Long was told to the TRIBUNE extra last night.

The confession was made before Prosecuting Attorney Mrs. Deotto in the cell of the self-confessed murderer in the prison after a warrant charging murder had been sworn to by Harry G. Williams, the well known coal dealer of this city, who is a brother of the murdered policeman. Bradley made his confession in the hope that when he should come before the Superior Court for trial, mercy might be extended to him, with the sentence of death which might be imposed, commuted to that of life imprisonment or even a lesser penalization.

**GANG OF HOBBOS.**  
Bradley, who for the last ten years has been a wanderer among wanderers, was captured as the leader of a gang of hobos who have been making an old quarry in the city their headquarters. The members of the gang were two San Francisco youths who had run away from home, and an ex-soldier who may be a deserter from the army. The boys will be released by the police and the record of the soldier will be investigated.

The capture was made by Captain Thorwald Brown, Patrolman McMorley and a posse of police from the Oakland police station, who suspected the fugitives were hiding under the bridge of having entered the home of F. S. Matthews in Berkeley avenue last week. Captain Brown sent the men to the central police station for investigation, and Inspector Richard V. McMorley, who had worked on the Williams murder and had made many unavailing attempts to locate the murderer through the descriptions furnished by Julius Long, immediately contacted Bradley of being the man after looking him over in the city prison.

Bradley wore the same suit of clothes and the same shirt he had worn on the day he killed Policeman Williams. Julius Long was able to verify some of the man's costume as he had described this to the police after the murder. Bradley also had the same revolver with him.

**SLAYER IS CALM.**  
The utmost calmness was displayed by the murderer in regard to his act. According to his confession, he never attempted to find out whether the man he had shot twice died of the wounds inflicted. He did not know that Williams was a policeman, and with the greatest nonchalance, he returned to the scene of his crime and made little effort to avoid capture.

According to Inspector Richard McMorley, Bradley is a man of a low order of intelligence and character, who would fit into the series of portraits painted by words in some of the stories of Eugene Sue of the underworld of Paris. A man of better instincts, as the night of his fingers for human life, using a gun to kill by small plundering expeditions in which he stole chickens, bread, meat and milk, wandering from city to city, sometimes working a few days, taking money from lodging houses of a cheap order in which he lived from time to time picking up companionship with runaway boys whose way of life he followed, wandering about the country and indulging them into the largest and most vicious of thievery and life among the vagrants. It adds presents a strange problem in criminal psychology to the police.

**UNAWARE OF MURDER.**  
After being brought to a searching prison, questioning Inspector McMorley, Thomas Hall and Patrolman McMorley have come to the conclusion that Bradley was a man of low intelligence and character, who would fit into the series of portraits painted by words in some of the stories of Eugene Sue of the underworld of Paris. A man of better instincts, as the night of his fingers for human life, using a gun to kill by small plundering expeditions in which he stole chickens, bread, meat and milk, wandering from city to city, sometimes working a few days, taking money from lodging houses of a cheap order in which he lived from time to time picking up companionship with runaway boys whose way of life he followed, wandering about the country and indulging them into the largest and most vicious of thievery and life among the vagrants. It adds presents a strange problem in criminal psychology to the police.

## ORIENTAL MYSTIC'S CASE NEARS END

Jury Expected to Be Many Hours in Considering Evidence.

LOS ANGELES, July 11.—Owing to the length of the case, arguments were completed yesterday. The jury in the case of Gorman Tutts, Jr., the Oriental mystic, charged by his wife, formerly Mrs. Roe of Fort Worth, Texas, with having obtained more than \$100,000 from her under false pretenses, did not begin considering a verdict until this afternoon.

This is Tutts' second trial on the same charge. The first jury failed to agree and in the present case it was expected that hours would elapse before the jury offered a report.

## You Can't Afford Cheap Dentistry

Cheap dental work is the most expensive kind. It always costs more in the long run than the very best. When you are in need of medical attention you call in the most skillful physician you can secure, even though his fee may be a little larger than that of some one else. Why don't you use the same judgment in selecting a dentist? Surely your teeth are worth it. Perhaps you wouldn't have any doctor bills to pay if your teeth were fixed so that you could masticate your food properly. High-grade dentistry is a hobby with me. I can't do it for the money. Although I charge no more than any other first class dentist, yet I offer you something that you can't procure elsewhere—complete freedom from pain. Haven't you often wished, while seated in the dental chair, that there was some way of preventing the awful torture you were forced to endure? Don't you remember how you felt when the dentist sent the horrid little drill crunching its way into a sensitive tooth which he was preparing to fill? Wouldn't you feel relieved if you knew that you could get your teeth fitted, crowned, treated or extracted without experiencing one bit of pain? Well, I have found a way of doing even more than that. My wonderful Terrythesia method makes all work on the teeth absolutely and positively painless. It never fails. Terrythesia is not injurious in any way. It produces no ill effects. There never was such a thing as a painless dentistry until I perfected this marvelous Terrythesia method. It does not live up to their promises. They have no means of eliminating pain. I don't make assertions that I can't prove. When I say that I have conquered pain, I mean it. Just make me show you what I can do. At the same time I would also like to explain my Terrythesia method of replacing lost teeth without plates or bridgework. If some of your teeth are missing, I can supply you with others

## LORIMER SPEAKS IN OWN DEFENSE

Plays Chicago Newspapers and Those Who Are Against Him.

(Continued From Page 1.)

ad his manuscript and took up a place in the center aisle from which he could be heard on both sides of the chamber.

ATTACKS NEWSPAPERS.

On the back walls of the chamber were two diagrams of Chicago streets. One showed the location of the Chicago Tribune building with the valuation of other property at Dearborn and Madison streets, the other showed property on Madison between La Salle street and Fifth avenue, comparing the assessed valuation of the Chicago Daily News property and that adjoining.

From these diagrams Senator Lorimer made his attack on the Chicago newspapers which had opposed him. Senator Lorimer charged that while the Tribune property was worth from \$7,000,000 to \$10,000,000, it paid taxes on only \$120,000. He called these newspapers "robbers of the public treasury of Chicago." He attacked Victor Lawson of the News and charged that the News occupied a school land at a rental of 11 per cent square foot and paid no taxes, while less valuable land across the street rented for \$3.50 per foot.

Lorimer charged that Lawson had secured unlawful reduction in taxes upon his home and business property and added that Lawson was trying to drive him out of public life.

INTO PENITENTIARY.

"If State Attorney Wayman would treat Victor Lawson as he would treat William Lorimer, if he were the transgressor," he declared, "Victor Lawson and the chief clerk in the assessor's office would be put in the penitentiary today for conspiracy to commit fraud."

Senator Lorimer launched into a spirited attack upon Governor Deeney and his fees in office as state's attorney. Lorimer declared that erroneous statements had been sent out to the world by the newspaper agencies. He referred to what he termed the control of news sources by "Victor Lawson, Altheide, E. Stone and Frank B. Noyes, who formerly ran the Record-Herald for Mr. Lawson."

The Senate took a recess at 3:30 p. m. until 10 o'clock tomorrow morning, when Senator Lorimer will conclude his speech and a vote probably will be taken. The end of today's session was brought about by the Senator's weakened condition.

## OAKLAND MUSEUM IS RECIPIENT OF GIFTS

A number of interesting curios and relics have been presented and loaned to the Oakland Public Museum during the past month. Among them is a collection of ancient and Oriental ethnological material, made by the late Dr. James Taylor White, formerly surgeon in the Alaskan revenue cutter service. This collection is offered by Mrs. White, who states that in all probability it will revert to the institution later as a permanent gift.

An interesting object is an autograph letter from the late Queen of Denmark, the wife of Christian X. Queen Alexandra's letter, donated by Rev. M. N. Anderson.

Other objects include twelve Indian articles, among them cooking stones, a soap paddle, a pair of litters for hot stones, seeds and fish eggs used for food purposes, arrow points, wokus seeds and a piece of mesquite bread.

One cedar chest, leather covered and elaborately decorated made in California in 1850 for Timoteo Murphy, donated by Mrs. A. E. Clark; one very crude Alaskan stone bullet mold, donated by Mrs. Carlotta E. Hooper; a collection of articles of ladies and infants' wear made in 1825 and 1830, and a teacup and saucer made in Germany in the nineteenth century; four books published in 1889 by the Territorial Legislature of Utah in an attempt to introduce a phonetic system of writing called the "Deseret Alphabet." A one-half cent piece issued by the United States Government in 1835 donated by Henry F. Vogt; one pocket watch (silver) donated by William Warren; one fossil tusk of mammoth eleven feet in length (Alaskan), donated by Mrs. C. T. Melmonist.

## PROGRESS MADE ON FAIR SITE

Drawings for First Building for Exposition Practically Completed.

SAN FRANCISCO, July 11.—The drawings for the Service building, the first structure to be erected on the Panama-Pacific exposition grounds, have been practically completed. The grouping of the minor buildings about the Fillmore-street entrance to the amusement concessions is now being considered.

Plans are being worked out for the sewer system, which is to drain the exhibit places. These plans are three-fourths completed.

Working plans for the fresh water system and the fire protection system are under way. During June about 250,000 cubic yards of material were deposited in the fill from the dredgers John McMillen and Oakland.

The work of constructing a seawall has been completed, and the contractors have about completed the fill they have been making between Buchanan and Webster streets, for the filling in of lands in the Presidio and the adjacent area have been called for, and these are to be received next Friday. Bids for the construction of a fence about the exposition grounds are to be received the same day.

To date, 75 buildings have been moved from the exposition site at Harbor View. Laborers under the direction of John McLaren, landscape engineer of the exposition, are preparing trees for planting and the water supply system for the museum has been installed.

Bids will be received on July 23 for the construction of three green houses, one polling house and the heating plant in the Presidio.

The city authorities have passed the necessary resolution to close the streets in the site of the exposition until January 1, 1917.

## PETITION FILED FOR ANNEXATION

San Francisco's Bill to Gobble East Bay Sent From Fresno.

SACRAMENTO, July 11.—One more initiative petition, adding to the ten already under way, proposing new laws or amendments to the state constitution to be voted on in November, was filed today in the secretary of state's office. This particular petition provides a law-vehicle by which cities and counties, two or more cities or counties may consolidate into one city or one county.

The proposed law, it is said, is for the purpose of paving the way for annexation election consolidating San Francisco, Oakland, Berkeley, Alameda and other cities.

The petition came from Fresno and contains a nominal number of names. The fact that it is from Fresno indicates that the proponents desire to have it originate in the state-at-large instead of at the bay.

## THEODORE BELL TO SUPPORT WILSON

Democratic Leader Back From Baltimore Pledges Aid to Nominee.

SACRAMENTO, July 11.—Theodore A. Bell, leader of the California delegation at the Democratic national convention at Baltimore, passed through Sacramento on the limited this morning on his way home to San Francisco.

Bell indicated for the first time that he would get behind Wilson and exert his influence in favor of the New Jersey governor, now that the latter is the nominee.

"While Champ Clark was the first choice of legions of Democrats, the Clark men throughout the country will not permit any personal disappointment to diminish their allegiance to this Democratic cause under the leadership of Woodrow Wilson," he said.

## Increase in Suicides Rapid in America

NEW YORK, July 11.—Figures collected by statistical experts here, show that suicide is increasing at a rapid rate throughout the United States. Reports from 100 cities show a general rate of 18 per 100,000 of population, as against 17.7 for 1910. The United States census gave the 1910 rate as 16.0 for the entire registration area. The cities with the largest proportion of suicides per 100,000 of population were: San Diego, Cal., 63.8; Elmira, N. Y., 47.8; Davenport, Iowa, 44.4; Sacramento, Cal., 39.9; San Francisco, 37.5; St. Louis, 37.2; Denver, 35.7; Los Angeles, 35.2. The rate in New York is 16.5, and in Chicago, 21.4. During the past two years the rate has increased in sixty cities and decreased in 39. The rise is confined chiefly to relatively small cities.

## HIGH SCHOOL STUDENT FRACTURES HIS HAND

## SWITCHMEN KILLED WHEN ENGINE RUNS INTO CARS

FRESNO, July 11.—Los Montemore switching foreman, and Edgar James, his assistant, were crushed to death in the local Santa Fe yards this morning when an engine on the running board of which they were riding, crashed into a string of flat cars.

## ACCUSE VON JUNG

SAN FRANCISCO, July 11.—The Luback Investment Company, 401 Pacific building, notified the police this morning that they had been victimized by Max Von Jung arrested last night and held in detention for the alleged passing of worthless checks.

## CORNING WILL IS SET ASIDE

\$225,000 Worth of Property Ordered Distributed by the Court.

Hens at law of the late Louisa T. Corning, who died a year ago, leaving a fortune valued today at \$225,000, will not have to die before the estate can be distributed, for Superior Judge Ogden today set aside her will on the grounds that it is an invalid trust for the trustees to convey real and personal property as provided in the document.

Contest was filed by the heirs at law through a petition for distribution and demurrer to the probate of the will. The will left the greater part of the estate to grand-nephews and nieces to be distributed after death of the present heirs. Those who will now share in the estate are James H. Davis, who will receive one-fifth, Hannah E. Greenough, one-fifth, Charles Terpeny, one-tenth; Mary Palmer, one-tenth; Frank Terpeny, one-tenth; Walter J. Terpeny, one-tenth; and Anna T. McIntosh, one-tenth. With the exception of Davis, who is executor, the other relatives live in the East.

Upon the death of John Corning, her husband, Mrs. Corning found that her estate did not amount to more than \$1500. Huntington, W. H. Crocker and James She went to Leland Stanford, C. P. Fair, with whom Corning had been associated during the early railroad building days in California and they contributed \$250,000 each to a purse for the widow. Until death of the testator they directed the investment of the amount and it increased rapidly. Since probate commenced the estate has increased to \$225,000. Among the beneficiaries of the widow was one of \$1000 to Chew Suet, her Chinese cook, who immediately after getting the money immediately it was paid a year ago, and was the first payment in the affairs of the estate.

Contest was begun by Attorneys Reed, Black & Reed and J. A. Bingham, who cited a similar instance in the Fair case wherein the conditions were similar and a decision obtained.

## 'DRY' INSURGENTS SECURE VICTORY

Prohibition Convention Has Its Troubles as Well as Other Parties.

ATLANTIC CITY, N. J., July 11.—Insurgency broke out in earnest in the national prohibition convention here today and forced an adjournment of the first session without transacting any business other than the passage of a rule to take up during the afternoon the election of a national chairman by the convention itself. This was an insurgent victory.

Attempts were made to go ahead with the nominations of presidential and vice-presidential candidates, but the insurgents decreed that the national chairmanship should first be settled and they had their way.

A self-constituted committee of convention leaders met and agreed upon a plan of taking what amounted to a blind ballot on the national chairmanship. Upon this rule, which the convention will be asked to adopt, no nomination will be allowed, but balloting would continue until one man received a majority vote.

The friends of National Chairman Chas. R. Jones of Chicago were bent on trying to offset the insurgent movement to defeat him.

The adoption of the party platform, drawn by the committee on resolutions, was also put off until afternoon. Many of the delegates are anxious to end the convention tonight.

## FEDERATION PLANS RADICAL CHANGES

Miners Propose to Strike From Constitution Anti-Long Term Rule.

DENVER, July 11.—Radical changes in the by-laws of the Western Federation of Miners are contemplated in proposals to be submitted to the annual convention which opens in Cripple Creek, Colorado, July 15.

President Charles H. Moyer will recommend the establishment of a home for aged and infirm miners, the expense to be met by a new capital tax and endeavor to interest the members in a proposal to invest surplus funds of the organization in established mining properties.

## FIVE MEN OVERCOME IN HOLD OF STEAMER

SAN FRANCISCO, July 11.—Overcome by deadly fumes which had been set to kill insects in the hold of the steamer George W. Elder at Vallejo street wharf at noon today, five stevedores sought treatment at the Harbor Hospital. They are: W. Reddel, 1264 Sixteenth street, Oakland; G. A. Cruz, 424 Alameda; E. Ashton, 725 Steiner street; V. Hanson, 1225 Steiner street; James Wilson, 613 Twentieth street. As soon as they had reached the hospital they recovered.

### COURT HALTS PLAN TO SELL WATER RIGHTS

SAN FRANCISCO, July 11.—To prevent Assessor J. B. Ryan of Tuolumne county from selling and selling for non-payment of alleged delinquent taxes millions of dollars' worth of Hatch Hetchy water rights and realty, owned by the City and County of San Francisco, as he has threatened to do, thus involving the municipality in interminable litigation and delaying the municipal water supply system, Judge James M. Sewall in the superior court has signed a temporary injunction.

The order forbids Ryan from interfering with the properties of San Francisco city and county located within Tuolumne county, until he or the proper authorities appear in the superior court here and show by what right of law the assessments have been made and why he or they should not be perpetually enjoined from attempting to collect the taxes assessed or attempting to seize or sell the rights and lands involved.

### ATTEMPT TO DROP IN ON BRANCH POSTOFFICE

SAN FRANCISCO, July 11.—The drug store of Henry Hansen, 246 Castro street, containing a United States branch postoffice, was marked for burglary by robbers, who attempted to bore their way through from a flat, being remodelled, above. Neighbors heard the noise made by the culprits and notified the police. When Detective Quintan arrived he found that they had fled, leaving their tools behind.

## U. S. POSTAL BOND BUSINESS IS GOOD

California Passes the \$50,000 Mark in Paper Applied for to July 1.

WASHINGTON, July 11.—The information as to the relative standing of the various states in the amount of postal savings bonds applied for on July 1, and a comparison of this standing with that of January 1, last, was made public today by Postmaster General Hitchcock.

The total amount of bonds applied for on July 1 was \$55,486. The total on the previous issue January 1, 1911, was \$41,728 and on July 1, 1911, \$41,808. The grand total of the three issues was \$138,140.

Three states—Ohio, Indiana and California—passed the \$50,000 mark. New York, Colorado and Michigan each applied for more than \$30,000 of the bonds. Nevada, Texas, Iowa, Washington and Oklahoma each applied for more than \$10,000 of the bonds.

South Carolina was last with \$560 but its percentage of increase since January 1 last was the greatest, 83.2.

## 'PURE FABRIC BILL' INTRODUCED IN HOUSE

WASHINGTON, July 11.—A "pure fabric bill," the first measure of the kind ever introduced in Congress, has been introduced by Representative Burke of Kansas. ## ORPHEUM BILL RATED AS BEST BET OF SEASON

GEORGE EVANS.

Vaudeville of the superior kind is proving to be a mighty magnet at the Oakland Orpheum this week with Frank Keenan heading a bill that could be easily rated as "the season's one best bet." Keenan has not been on the coast for ten years and some theater goers may have forgotten that he is probably the best character in America. A lot of them are finding it out this week at the Orpheum for Keenan is producing a foretold bit of drama called "Man to Man." It is a brilliantly written and powerfully acted drama and shows Keenan at his best. It is hardly necessary to say that it is well worth while to see Keenan at his best. The Orpheum management announces that Keenan's engagement will end next Saturday night. He is here for one week only, there being an Orpheum rule that all acts, with rare exceptions, play but one week.

The Princess Rajah, who expected to create a sensation, has more than accomplished that feat. The town is talking of her remarkable Oriental dance and her daring manipulation of the big cobra snake of the East India variety. There is rare art in Princess Rajah's spectacular dancing and one gets a glimpse of life in old Egypt when she is on the stage. Although daring it is thoroughly artistic at every point.

Ed Wynn with his funny hat is back again and is delighting the multitudes. Others on the bill this week and who are scoring big hits and who will close Saturday night are The Tuxedo Comedy Four, Miss Oveland, the Chinese song bird, Krenka Brothers, European athletes; Boudini Brothers, wizards of the accordion.

## EVANS COMING

George Evans, who is declared to be the highest salaried minstrel in the world, whom theatergoers remember as "The Honey Boy," is to make his first appearance at the Oakland Orpheum next Sunday. He will no doubt receive a warm welcome for his fame is world-wide and he has thousands of admirers around the bay.

A big English musical act, the Elliott Savonas will be one of the notable features of the new bill at the Orpheum next Sunday. They present "The Palace of Orpheus" and in addition to their remarkable talent as musicians they carry a beautiful scenic equipment which makes their performance as pleasing to the eye, as it is delightful to the ear. The five Piroccos, a juggling quintette of remarkable dexterity will be on the program. There will be other features of the usual high standard maintained by the Orpheum.

Frank Keenan, the famous actor now at the Orpheum, was guest of honor last night at a banquet given at the local council of the Knights of Columbus. The Knights were entertained by Keenan after the banquet. He delivered a witty speech discussing the various phases of the Catholic order and its usefulness throughout the land. Keenan is a prominent member of the organization and is regarded as one of the most valued and honored members.

The Knight of Columbus of Oakland, Alameda and Berkeley have arranged to attend the Orpheum in a body on Thursday night as a compliment to Mr. Keenan and his play "Man to Man."

## WILL LOST 10 YEARS; FINDER GETS \$52,000

LONDON, July 11.—A dispatch to the Star from Cheltenham says the will of the late Henry Thomas Coghlan, who died in 1892, leaving an estate valued at approximately \$5,500,000, for which a reward of \$52,500 was offered, has been found. Coghlan lived the life of a recluse at a house in Hyde Park Gardens. When he died the house was ransacked for a will, but none was found. The fortune was divided among the next of kin.

The estate was administered since 1892 by the late baronet Sir Henry Deves Broughton. The details of the will have not been divulged, but it is stated every thing was left to Sir Henry Deves Broughton. Hence the relatives who got part of the estate will have to make restitution to the present baronet, Sir Deves Louis Broughton.

## ALFALFA MEN RID FIELDS OF HOPPERS

NEWMAN, July 11.—Alfalfa ranchers south of here say they have conquered the grasshopper pest, which at intervals for several years past threatened to become serious.

They are using a little machine, made by themselves, which runs on wheels, close to the ground, and is pushed by hand. It is in front of it are gathered in through an opening. When the holder is full the hoppers are dumped in a big box and asphyxiated with a little blimp of carbon, then spread out and dried in the hot sun, when they are sacked up and piled away for chicken feed.

Some ranchmen have hundreds of sacks of dried grasshoppers for winter feed. The remedy is considered a permanent one, and the farmers no longer fear the grasshoppers.

## ELECTRIC LINES RUSHED

PELAIKMA, July 11.—The engineers who are surveying the route from Santa Rosa to Cotati for the Petaluma-Santa Rosa Electric Railroad have completed the work and will have the road back to Santa Rosa where construction work will begin. The surveyors who have been working on the Petaluma-Santa Rosa Electric line between Santa Rosa and Cotati have completed their work and will start August 1. All rights of way have been obtained.

## FOUL PLAY HINTED AT IN BELL CASE

Mother-in-Law of Dead Woman Makes Veiled Charge of Poisoning.

SAN FRANCISCO, July 11.—Surrounding death of Mrs. Fred Bell, once a beautiful and popular society girl of Alameda, who died Sunday morning in a private sanatorium for inebriates in Page street, there is being raised another of the mysteries that for 20 years have given the widow and children of the late millionaire, Thomas Bell, the name of the "family of mysteries."

Mrs. Fred Bell died, according to the report of the attending physicians, from the effects of alcoholic poisoning, or acute alcoholism, from which she had been a sufferer at intervals for several years.

Mrs. Theresa Bell, her mother-in-law, estranged from her stepson through years of litigation over the \$3,000,000 estate, has urged a police investigation of the death, asserting that Fred Bell had a motive in getting his wife out of the way.

Bell, who lives at the Holland hotel in Ellis street, indignantly denies the charge, and realizing a month ago, that he was under suspicion of poisoning his wife, he called in a number of physicians to consult with Dr. R. E. Bering, in whose charge he had placed her. Since Sunday an examination of the dead woman's stomach and brain has been made by a chemist, who will make a report at the inquest to be held in a few days.

## BELL CONFIDENT

The circumstances of Mrs. Bell's death, together with what they call her extraordinary disappearance three months ago, have led several of her friends to share the suspicions of the mother-in-law. It is said, but Bell insists that the inquest will clear him completely and put a quick end to the ugliest, if not the deepest, of the Bell family mysteries.

Early in January Mrs. Fred Bell, who had not lived with her husband for several months, went to make her home with the family of Mrs. Mary C. Scott, 4418 Twentieth street. Only a short time before she had taken Mrs. Bell for the drink habit, which had commenced to wreck her life shortly after her marriage.

She evinced a desire to live quietly and to overcome her craving for alcohol and reluctantly the Scotts took her beneath their roof. She was constantly under the care of Dr. John F. Sullivan, 431 Guerrero street, and saw him as often as three or four times a week. She had improved rapidly in health and spirits, according to the Scotts, and seemed to be recovering completely.

## FAILS TO RETURN

On the morning of April 10 she left to keep an appointment with a dentist. When she did not return at noon, one of the members of the family telephoned her dentist, who called to her home and started home. Late in the afternoon the telephone bell at the Scotts home called them, and a feminine voice said Mrs. Bell was not in condition to come home.

When asked where Mrs. Bell had been taken, the voice refused to answer. Though a diligent search was made, with the assistance of Doctor Sullivan, the woman could not be found, and gradually the suspicion came to believe she had been made the victim of foul play. Less than two weeks ago they heard indirectly that she was at Doctor Bering's sanatorium, but they were not allowed to see her until after her death.

## GUARDIAN SOUGHT FOR MRS. WELCH

Prominent Young Woman III for Several Years, Says Husband.

REDWOOD CITY, July 11.—A petition for the guardianship of Mrs. Ethel Welch, whose husband, A. J. Welch, is a son of Mrs. Andrew Welch and an heir to the Welch millions, was heard in the court of Judge George Buck in San Mateo county yesterday. The petition had been filed by Eugene A. Welch, who is a brother-in-law of Welch by his marriage to one of the Welch heiresses.

Welch was married more than eight years ago to Miss Ethel Tobin, daughter of Richard C. Tobin, a prominent banker. He has a country home at Woodside, at which he spends the summer months.

"We made application for guardianship merely to have legal control of the small amount of property which my wife has," said Welch. "She has been ill for several years."

## MUCH ICE CREAM IS IMPURE, SAYS EXPERT

SEATTLE, July 11.—At the meeting of the Association of State and National Food and Dairy Departments on the 10th day of its convention at the University of Washington, the papers were read as follows: "The Necessity for Food Control and the Best Means of Enforcing Pure Food Laws," by A. N. Coke of South Dakota; "The Enforcement of Food Control," by William P. Cutler of Missouri; "Should Laws Governing Food Sanitation Be Enforced Through Food and Drug Control or Through Other Agencies?" H. E. Barnard of Indiana.

At the session last night, James Foust, state food commissioner for Pennsylvania, called attention to widespread impurity of ice cream, which, he said, was often made in the east by the mixture of skimmed milk and spoiled butter.

## HIGHWAY BONDS ARE SOLD TODAY

Block Valued at \$2,000,000 Disposed of by State Treasurer.

SACRAMENTO, July 11.—The sale of a \$2,000,000 block of the state highway bonds, ordered by the state engineering board at its May meeting, will take place some time today in State Treasurer E. D. Roberts' office. The paper to go to the firms offering the highest premiums above par. The money is to be used in starting the first actual work ordered by the Highway Commission last month in Tuba, Maricopa, Mendocino and Madera counties.

The bonds to be sold are divided as follows: Eight parcels of \$50,000 each, four parcels of \$100,000 each, and three parcels of \$400,000 each. They will pay 4 per cent interest.

Thus far only \$400,000 of the \$2,000,000 issue of highway bonds authorized by the people at the 1910 elections have been sold. These were disposed of on October 21, 1911, and the funds realized were used in the preliminary work done by the State Highway Commission.

The work ordered last month by the Commission will not require the entire \$2,000,000 to be acquired by today's sale by any means, but as work is expected to be ordered started at each monthly meeting of the commission hereafter, it was thought advisable to dispose of a large block so that there would be no need of frequent sales.

## BISHOP NICHOLS TO ACT AT CROCKER WEDDING

HILLBORO, July 11.—The announcement has been definitely made that Bishop William Ford Nichols will officiate at the wedding of Miss Jennie Crocker and Malcolm Whitman, which is to be held at the Church of St. Matthew, on July 12.

Although less than a week remains before the wedding, Whitman has not finally decided who is to attend him at the function, but he said today that he would make his announcement within a few days.

Welch's father, before his death, was one of the big operators of San Francisco in the shipping industry.

## EVERY DOG MUST HAVE HIS DAY

Owners Want Them Unmuzzled and Free to Bite Anyone.

LOS ANGELES, July 11.—Several hundred dog owners banded together in a new organization the Dog Owners' Protective Association, launched a movement today to force the repeal of the muzzling ordinance, which went into effect a few weeks ago. Among those who will circulate the petitions for the repeal of the ordinance are several society women, who took part in a big mass meeting of protesting dog owners last night.

"The dog is going to have his day right now," announced Norton Haseldine, president of the new protective association, "and protection will be accorded every dog, from the bluest blooded to the lowest cur, against any tyrannical dog muzzling legislation."

## AIRSHIP FOR WAR

## An Ideal Man for the Place.

The formation of a citizens' anti-annexation league to combat the intrigue having for its object the absorption by San Francisco of the cities and towns lying on the eastern and northern shores is a wise move. If resistance to this conspiracy against the independence and welfare of Oakland is to be effective there must be organization and intelligent work.

A competent and active man to conduct the literary campaign against annexation has been selected in Talisen Evans. A better selection could not have been made. Mr. Evans is admirably equipped for the task committed to his hands. He has a vast fund of information cognate to the subjects with which he has to deal, and has the literary facility to employ this information to good advantage. He is a forcible and versatile writer, a close observer and an indefatigable worker. What is still more to the point, his heart will be in his work. He is an old resident and a taxpayer of Oakland, and is loyally devoted to the interests of this city.

The anti-annexation league is to be congratulated on its choice of a publicity agent. It was fortunate in securing the services of Mr. Evans, for we are confident that his work will prove an effective antidote to the paid missionaries of annexation San Francisco is sending over here to pull the wool over the eyes of the inhabitants of Alameda county.

The New York Sun says fully two-thirds of the Irish lace sold in the United States is manufactured in New York City. It is Irish in pattern and made from the same material that real Irish lace is manufactured, but it is not made by Irish hands. It is the work of Italians, Poles and Armenians, who dwell in the tenements of the East Side in New York. When efforts were made to revive the lace industry in Ireland and a market was built up in the United States for Irish laces, lace-making was taken up in the sweat-shops of New York by immigrants from Southern Europe.

## Roosevelt Advises Political Burglary.

Roosevelt advises his followers to strive to nominate electors who will vote for him on the Republican ticket in States where they control the Republican organization and to nominate Roosevelt electors on the Democratic ticket wherever they can. He proposes to run as a Republican candidate in some States and as a Democratic candidate in others, to the exclusion of the regular Republican and Democratic nominees.

Yet the Colonel has adopted as his shibboleth the Commandment, "Thou Shalt Not Steal." Crying out against political robbery, he proposes the most colossal and bare-faced steal ever suggested in this or any country. He proposes to rape both parties, and to run under false colors on usurped tickets.

In this State the Roosevelt followers are advised to register as Republicans and vote for men who will betray the Republican party and help defeat its chosen candidate.

Roosevelt electors have already been nominated on the regular Republican ticket in South Dakota. An effort is being made to do the same thing in Iowa, and it is the announced program of the Johnson machine in California.

Every Roosevelt paper is openly advocating it in brazen disregard of decency and fairplay. The effrontery with which this outrageous scheme is defended is a striking evidence of the moral perversion that prevails in the Roosevelt camp. To such desperate and dishonest expedients has the third-term candidate become reduced. His thirst for vengeance and his unbridled ambition have made him morally insane.

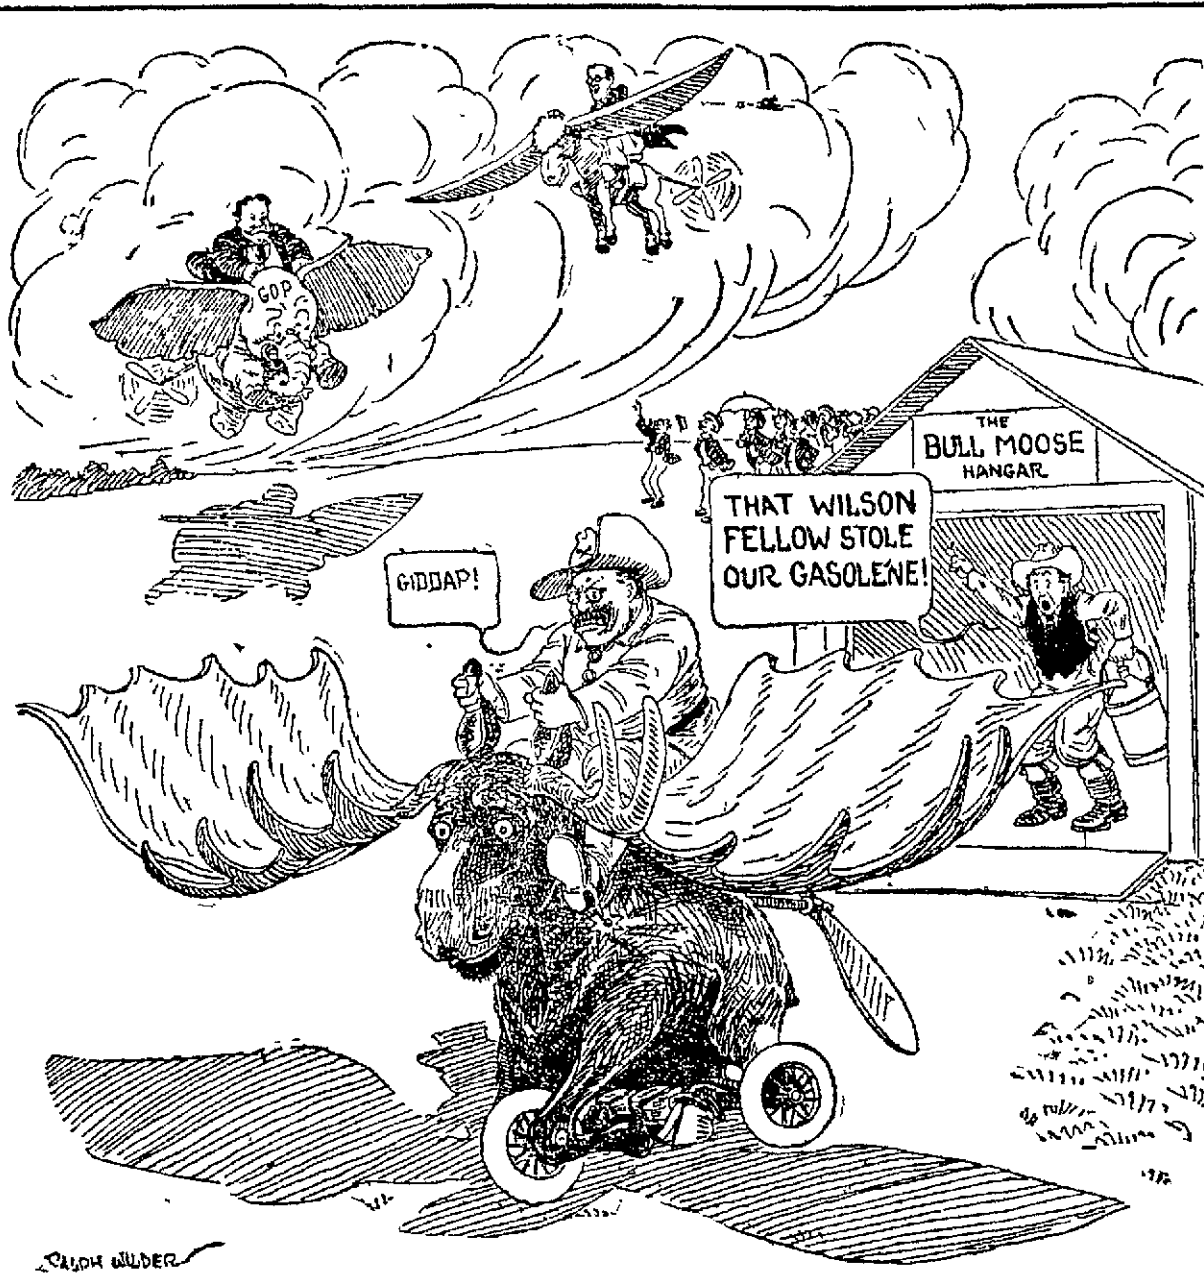

We are glad to see the government put its foot down on the effort to corrupt the name of San Francisco. Collector Stratton has refused to accept a lot of seal locks furnished the custom house carrying the vulgar distortion "Frisco" instead of the proper name of San Francisco. His action is to be commended. "Frisco" is a term of abomination affected by the hobo and the tin-horn sport, also the preternaturally wise tenderfoot. "Frisco" is a name for the Barbary Coast and Tar Flat, but not of the great city of San Francisco. It suggests spring-bottom pants, snide jewelry and the social standards of Minna street. San Francisco is a full-mouth word, musical, resonant, sonorous and dignified, suggestive of the Spanish pioneers and their habit of giving places founded or discovered by them the names of Saints of the church. "Frisco" is both meaningless and vulgar, a distortion without etymological or other significance.

## Flying Not Yet Safe and Easy.

The numerous tragic accidents which have followed his death rather discounts Wilbur Wright's prediction, made only a short time before he died, that flying would become as easy and safe as motoring. At present aviation is not easy and it is not safe. The peculiar operation of air currents is not yet fully understood and no machine yet invented is reasonably safe. Doubtless aviation will become less perilous in future, but it has not yet reached the stage of development that Wilbur Wright predicted. He suggested that it will soon be common enough for the tired business man to pull his desk, step into his hydro-aeroplane and skim off over the blue waters or through the air to his summer home in the mountains or by the sea. "He is going to do his flying as unconcerned as he now does his motoring or motor-boating," said the inventor. As if in mockery, an appalling list of fatalities followed this statement. The inventor is always an optimist, but seldom a true prophet.

"Dad is praying for Clark," blurted out one of Roosevelt's hopefuls while the Baltimore convention was in progress. "The prayers of the righteous availeth much," sayeth the Good Book. What shall we think of the failure of the Colonel's intercession with the Lord? Perhaps the Lord took cognizance of the fact that Bwana Tumbo's prayers and Tammany's votes were seeking the same result.

## THE POLITICAL AVIATION MEET

## Protection for Miners.

Another mine horror is reported from West Virginia. Perhaps this one was unavoidable—perhaps no one is to blame, and that the shocking loss of life was a natural consequence of the perilous character of the coal mining industry. Nevertheless the frequency with which such terrible accidents occur should admonish mine owners as to their duty to their employees, and the public as to the imperative necessity for throwing around men who are required to delve underground for a livelihood all the safeguards the law can devise.

In the past too little regard has been displayed for the safety of men employed in collieries. Many of the most tragic accidents occurring in coal mines are directly traceable to the negligence and indifference of mine owners who save money by neglecting to take such precautions as prudence and humanity would suggest.

Human life has been rated too cheap in the mines. Colliery owners have consulted the profit and loss account rather than the needless perils to which they expose their employees. They have taken desperate chances because when anything goes wrong the chance goes against the poor men underground and not the mine owner. In the office of the boss there is no hint of the dangers the toilers in the subterranean depths must encounter.

Where employers are callous and heartless and oblivious to the duty they owe their fellowmen, their obligation to society and the dictates of humanity, the law should step in and compel them to provide reasonable safeguards against accident. Mining can and should be less perilous.

Science, humanity and the law should combine to avert such horrors as the one reported from West Virginia. The time is past when human lives can be needlessly sacrificed to the desire for gain.

Chester Rowell says Roosevelt and his immediate clique refused to allow Governor Hadley to be nominated at Chicago because "they had lost confidence in him." This loss of confidence dated from the moment it was proposed to make Hadley the nominee by consent of both factions. The crux of the progressive principle is a third term, with others in prospect, for the bull moose. It was high treason to suggest anybody else. Progress begins and ends with Roosevelt. When he dies the sun will cease to shine, the stars pale in the heavens and chaos come again. What absurdity! The delusion that any single individual is indispensable to the existence of a democracy is the foundation of autocracy and absolutism; it is the stepping stone of tyrants, an obstacle to rational application of democratic principles in a government for and by the people. It seeks to substitute the will of an individual for government by the people. Upon this delusion Caesarism is built.

## MARVELOUS TERMINAL

The most wonderful thing about the new grand central terminal station in New York City is that it is built in the identical spot occupied by the old with-out interfering with or even inconveniencing traffic. It is no unusual thing for railroad engineers to replace a bridge or other structure without interfering with traffic, but such a feat has never before been performed on so vast a scale. In the last nine years the engineers have removed 200 old buildings and 25 miles of pipes and sewers from the area added to the enlarged terminal, built an entire new sewer system to take care of the drainage from the terminal area, replaced the busiest railroad tunnel in the world with a new one took down an old station and replaced it with a larger one, sunk the tracks to an average depth of 50 feet, replaced the surface, largely through rock, and replaced it with steel and concrete, all without interfering with passenger or freight traffic.

Another remarkable thing—this greatest of passenger terminals will cost nothing or perhaps it would be more intelligible to say that while the entire improvement will cost \$150,000,000 the railroad will get it all back without touching the fare.

## Ballade of Discomforts

At ninety-seven Fahrenheit,  
When each and several garments stick  
So humid is the fevered night,  
This pulling wheezes is a trick  
As hopeless as the strawless brick.  
The Dane-less play or hole-less chess!  
With all such troubles, grab it quick,  
One cannot sit and write with these!

Mosquitoes seek a hapless sight  
And register an ample lick;  
The gnats perform their best at night.  
(This gnatty bite sure has the "kick.")  
One's very thoughts and knee-lengths stick,  
And night flings back no witty wheeze—  
Nay, though one tries his hardest lick,  
One cannot sit and write with these!

A hard can take no pose that's right—  
No pose that normal man would pick!  
Each seam and button seem tonight,  
Misplaced somehow, and cruelly thick!  
And though I try my hardest lick  
In all the world there is no wheeze,  
For, what with troubles, grab it quick,  
One cannot sit and write with these!

ENVOY:  
And then, today—O, thoughtless stick!  
I rode a horse—a horse all knees  
And vertebrae; and grab it quick,  
One cannot sit and write with ease.  
—John D. Wells in Buffalo News

## GOOD WORD FOR TAFT

Whatever the result in November may be, President Taft is justified in appealing to the voters on his record. His administration has been one of achievement. There may have been mistakes, but there has been no scandal. The administration has been patriotic in purpose. It has been generally economical in endeavor. It has been generally efficient in execution. It has been progressive in spirit—many times over more progressive in act than that of his predecessor, blatant declaimer of self-righteousness in public places and in crafty schemes with "practical men" in the privacy of his chamber—Nashville Banner.

## PUBLIC INTERFERENCE

The terrible catastrophe to the Vanti-man dirigible airship, almost immediately following the tragic deaths of Miss Quimby and her companion, emphasizes the danger of air navigation. Even the safest type of airship—for that is what the dirigible is thought to be—is far from safe. Count Zeppelin's own experiences with this type have been a long chapter of accidents, though without loss of life. In the present state of air navigation, would not the public be justified in attempting such a degree of regulation as would put an end to the misuse of airships at public exhibitions, and thereby keep down the rapidly increasing roll of fatalities? Fifteen aviators lost their lives in June, and seven have already been killed in July. Deaths are becoming almost a daily occurrence.

This shocking slaughter is not necessary to the development of aviation. It tends to make the public hold human life more and more cheap, and, heaven knows, it is already held cheap enough.

As the use of aeroplanes increases and the number of persons eager to operate them grows larger, and as exhibitions become more numerous, the state interferes to prevent reckless performances under improper conditions.

Something may be done by intelligent restriction, for some aeroplane manufacturers are able to make rules for the safety of employees, participating in exhibitions in their interest. Especially dangerous performances could be forbidden, as well as ascensions when weather conditions are unfavorable. Other rules could be suggested by experienced aviators who have ceased to give exhibitions and understand fully the dangers of flying under the prompting of show managers eager to give the crowds a thrill and aiming at big gate receipts. Proper regulation would not hamper the future of aviation, but would add it—New York Tribune.

## WOMEN IN THE NEWS HAZEL MILLER PUTS ASIDE BILBOY HUSBAND

Daughter of Wealthy Chico  
Man Wins Her Di-  
vorce Suit.

**A**FTER a married life of two years the romance of which began to receive severe shocks within a few weeks after a sensational elopement, Mrs. Hazel P. Miller, daughter of a wealthy Chico mining man, was absconded yesterday from her marriage vows to Frank N. Miller, her bilboy husband.

There has been nothing but war in the romance which had its rosy beginning when young Miller met the girl's father at the Fairmont Hotel here in 1910 and secured an introduction to the daughter. Mutual admiration led to love and resulted in the elopement of the young couple to Santa Barbara, where they were married.

At the solicitation of the young woman, her father's wrath was appeased and the happy pair returned to Chico and were given a reception that was attended by Chico's smart set.

With money supplied by his wife, young Miller started in business, but last March he felt the longing for the city and came to San Francisco without consulting her.

The young wife immediately secured the issuance of a warrant for Miller, charging him with the embezzlement of \$4500. He was arrested and held in custody until the appearance of Mrs. Miller, the charge was not pressed and they returned to Chico.

There were numerous partings and reconciliations, until a month ago, when young Miller again left the Chico home. Mrs. Miller followed to San Francisco. She testified yesterday that she was living in peace at 2397 Sacramento street until one night two weeks ago the husband came to the house, and after a somewhat heated conversation between them, struck her in the face with his fist and tried to break her nose. She had Miller arrested for this, but he was acquitted.

The specific charge upon which she secured her divorce and the custody of the 11-month-old child, Jillson, was infidelity. On June 10 she learned that Miller, Harrison, a dance hall girl, employed in a Pacific street resort, as the person who now possessed her husband's affection. This woman, the witness testified, received the money which Miller was accused of embezzling.

## An Obstacle Race

**PARIS, July 11.**—Miss Patricia Burke of Los Angeles is finding that her marriage to Juan de Ropoz de Ayala, Marquis de Fuensanta, is a veritable obstacle race and her friends are wondering when her nuptials with the Spanish nobleman will take place.

The royal family of Spain has thrown objections in the way. These were overcome and the date for the ceremony set, but the failure to secure the necessary papers necessitated a postponement.

In the interim Prince Ludovic Pignatelli d'Aragon, who was to have been a witness at the marriage and who is related to the Marquis de Fuensanta, attempted to break the wedding, but his efforts were unsuccessful.

At last, however, it looks as if Miss Burke really were to become a Marquesa, because it was announced that she would attend the ceremony, but the witnesses for the Marquis will be his brother, the Marquis de Merido, and Luis Ferdinand de Bourbon, nephew of the King of Spain.

Miss Burke is accompanied by Mrs. Tomlinson, with whom she is living at the Hotel Continental. Without any one else, she is expected to arrive in Paris, but she has attended to all the details of her approaching marriage.

## Visit Gateway City

**STOCKTON, July 11.**—A delegation of club women who were invited to Stockton upon the recent convention in San Francisco arrived in this city yesterday and are the guests of the Philomathean and Aldine Clubs.

Breakfast was served at a local hotel and the afternoon was followed by an informal reception. Mrs. Fisher R. Clarke, president of the Philomathean Club, acted as toastmistress and introduced Mayor R. B. Reibenstein, who made a short address.

Addresses were also made by W. A. Lane, manager of the publicity bureau of the Central California Traction Company; F. B. Nims of the Chamber of Commerce; and Postmaster F. E. Ellis. Several women responded to toasts, among them being Miss Lottman, Mrs. B. S. Davis and Mrs. F. S. Holley. Miss Annie Nourse of Frankfort, Ky., who warmly thanked the various commissions for the hospitality shown the visitors.

In the afternoon the visitors were entertained at the Philomathean clubhouse. Among the club women present were: Miss Louise Pinkel and Miss Louise Simons of New York City; Miss Grace Trevon of Oakland; Mrs. Henry Trevon of Berkeley; Miss Emma Broadway of Oakland; Mrs. Elmer Sherman of Berkeley; Mrs. E. L. Richmond of San Francisco; Miss May Morrison and Mrs. D. L. Russell of Berkeley; Miss Leonora Brown of San Francisco.

## The Cloak of Gold

By Lillian Russell

(Copyright, 1912, Lillian Russell.)

**P**ROBABLY a greater crime than murder is about to be practiced upon twenty simple, beautiful little working girls by an enormously wealthy society woman whose name has been mentioned freely relative to the circumstance—a Mrs. Larz Anderson. This woman is an American of enormous wealth, having inherited about \$17,000,000 from her father, William F. Weld, of Boston, Mass.

As the story goes, Mrs. Anderson is a writer of fairy stories, and to experience a real fairy story for her own amusement she has decided to take these twenty pretty young girls and, under the guise of making a psychological test, transplant them to her princely castle in Massachusetts. There for ten days these poor little girls are changed by a magic wand into princesses and lead a most luxurious existence.

She will give them servants to attend their beck and call. Motor cars, horses, ravishing toilettes, maids to wait upon them, and exquisite food will be served. They will enjoy for those ten days all that wealth can bestow upon them. Then by a wave of that malicious fairy wand their initiation into the realms of heaven or hell comes to an end. The heroines of this rich woman's amusement find themselves in their humble homes as poor as ever.

The psychology of this situation probably will be interesting and fascinating to rich women who have become bored. But to every mother who reads a pang of horror will pass through her heart at this criminal abuse of the privilege of doing good.

Not one of those girls will ever be happy again. No plain cotton dresses or stockings will look well to them. They will resent their parents and surroundings forever more.

That will be one of the psychological effects that will amuse the rich woman. There are but two openings for the outlet of their ambition—the convent or wealth at any price. One editor calls this vivisection of girls' souls and protests that it should be practiced under the cloak of psychology.

What a pity we have women so hardened that they can distort their imagination to such a degree—with the privilege of doing so much good for the working girls, building model tenements, hospitals, working girls' clubs where they could meet and mingle with their own classes, gymnasiums where they could take exercise free, and lunchrooms where they could have better food for little money!

There is more pleasure in seeing poor people enjoy themselves in their own way than taking them out of their familiar surroundings and the comforts of their own associations to give them enjoyment.

When rich women use beautiful young girls as martyrs for their amusement the law of compensation should be visited upon them by stripping them of the power to commit such crimes. This may seem strong for the beauty column, but nothing is more beautiful than youth, and to pollute youthful minds seems to me to be a crime that cannot be passed by without a protest.

## Answers to Queries

**MRS. T.**—The texture of the skin adds or detracts greatly from the beauty of the arms. Roughness of the skin on the arms between the shoulders and elbows is a common condition. Some skins are naturally finer than others and require less watching; some require constant grooming to keep this condition from arising or, if it has developed, to overcome it. A treatment that is usually successful is to scrub the arms first with a stiff brush, then with a complexion brush, as its bristles are too fine and a pure soap. The scrubbing should be vigorous, but not sufficient to break the skin, as is sometimes done, and should be followed with applications of hot towels. Keep this up until the skin is red, soft and velvety, and until every pore is open to drink in a soothing cream, which should be applied with gentle friction. For whitening and refining the skin cucumber cream is best. It is especially beneficial as a bleach. If you will send me a stamped, addressed envelope I shall send you the formula for a cucumber cream which is excellent for bleaching.

**MARIE.**—I don't think you weigh too much for your height. However, if you wish to reduce, take plenty of exercise. Tennis or golf are good exercise, or any other outdoor games. Take a long walk each day, before breakfast if possible. Do not eat sweets or rich, greasy foods. Eat plenty of vegetables. If the electric curlers are not used too hot, or kept at an overheat, they will not hurt the hair. I am sure this is not the trouble with your hair. Give your scalp about ten minutes' massage every night, and brush it good, giving at least 100 strokes to each side. This will excite the oil in the hair. If the ends of your hair are split, cut them off. Hair never will grow with split ends.

I know nothing about the article you mention. I shall be happy to send you instructions for scalp massage, a tonic for dry hair, and a dietary for reducing flesh, if you will send me a stamped, addressed envelope.

## Woman, and is determined to wed the yellow man of her choice.

Clark Gage told the couple that it was against the policy of the office to issue licenses for unions between Orientals and whites. Hain and Miss Stewart left the courthouse in a taxicab for the waterfront with the intention of taking the first boat to Kitsap county, where they declared they would try again for a license.

## Routs Assaultant

**COLTON, July 11.**—Officers searched the countryside yesterday for a young man who escaped after his hands and fingers had been badly mutilated by a knife. The man was found in the countryside and was taken to the hospital.

Mrs. Egan met the man on the road to her home. As is customary in the country, she accepted a ride in his buggy. But instead of letting her out near her home, the assailant drove to a lonely spot, where he attempted to choke her. Mrs. Egan managed to slink her teeth in the fingers of the assailant, and she said she nearly bit them off before he jerked away and fled. The woman's waist was covered with blood from the wounds inflicted by her teeth.

## Girl Is Suicide

**VANCOUVER, B. C., July 11.**—Sworn at by an irate telephone subscriber, to whom she had given a wrong number, Miss Maude Harris, a telephone employee, went home and cried bitterly. She brooded over the matter several days and on Tuesday evening locked herself in a bathroom, turned on the gas and was dead when found. She left a letter saying that she was tired of living.

## Beachey Suit Ends

**NEW YORK, July 11.**—Mrs. May Beachey, wife of Lincoln Beachey, the aviator, yesterday discontinued her suit for absolute divorce. She filed in the Supreme Court a written consent of all parties interested to end the action. The Beacheyes were married in 1906. Mrs. Beachey charged in her divorce complaint that her husband was guilty of misconduct with various women in Wilkesbarre, Boston and Rochester.

## Accused of Theft

**SANTA CRUZ, July 11.**—Mrs. Rose Pacheco of this city is a fugitive from justice, accused of having embezzled \$2000. Her alleged victims are John Pacheco, her husband, and Maria Augusta and Joseph Pacheco, relatives, who entrusted the money to her, supposing that she would place it in a bank. The husband lost \$1500, his brother \$1000 and the woman \$500. Investigation showed, it is alleged, that the early morning hours until dark they were in the bank looking for the money.

# OAKLAND'S BOYS AND GIRLS

**ATHLETIC CLUB HAS BEEN FORMED AT PLAYGROUND**

**MANY TO ENTER STATE UNIVERSITY**

**PLAYGROUND GIRLS VOLLEY BALL EXPERTS**

BYRON JOHNSON.

Athletic organizations have been launched at the School playground which was recently opened to the public under the auspices of the Oakland playground commission. Two weeks ago a baseball team, composed of boys and girls, was organized and coached by the director of the playground, who had trained the youngsters.

The winning team was composed of Ruth Christensen, catcher; Lucile Mondragon, pitcher; Eugenia Kuchinski, first base; Maxine Boyson, second base; Gertrude Christensen, third base; Edith Tibbels and Josephine Kessel, short stops; Benetta Benjamin and Ethel De Moya, fielders.

The same company of ball players defeated the Garfield school playground team by a score of 10 to 0. The Melrose team was presented with a trophy and American flags from the Oakland playground department.

In the fourth of July relay race the girls entered the relay race and ran against the Garfield, Lockwood and Melrose school playgrounds. The winners of the Melrose playground were Ruth Christensen, Josephine Kessel and Lucile Mondragon.

The Melrose team was presented with a trophy and American flags from the Oakland playground department.

Dressed in blue bloomers and middie blouses, the girls of Bushrod Park playground are ready to meet their rival volleyball players. The game has created unbounded enthusiasm and the children of the volleyball team declare that they are ready to enter contests at a moment's notice. The girls have become sprinters and splendid runners. They are alert and are training their eyes and ears to their outdoor exercises, which are proving very beneficial.

The tennis tournament for the girls and boys of Bushrod Park playground commenced yesterday afternoon. The girls were instructed by Miss Grace Davis while the boys were taught the rules by Director Wood.

**REGAINS MEMORY AND SPEECH.** VANCOUVER, Wash., July 11.—Paul A. Woolsey, who was injured by a heavy falling into a crowd July 4, and had been in a semi-conscious state since, has regained his memory and power of speech through an operation. Two splinters of bone were found pressing into the brain, and when these were removed Woolsey regained his memory and speech. He had been in a semi-conscious state since the accident and had been in a hospital for several days. There is hope that Woolsey will be able to return to his home.

**M**ISS HAZEL LAYMAN announced today the date of her wedding with Henry A. Helibron, Jr., for the evening of Wednesday, September 4, at the hospitable home of her parents, Mr. and Mrs. J. J. Layman, in this city. The details of the wedding will be elaborate and beautiful and the ceremony will be witnessed by 200 guests, many of whom are prominent in local society. The young couple after an extended honeymoon will make their home in Sacramento, where Helibron is engaged in business.

Miss Layman is popular among a wide circle of friends about the bay, and is also well known in her future home city, where she has been a frequent visitor.

The Layman family have been in Tahoe for the early summer and returned to town a few days ago. The bride party will be announced in a few days.

## STOCKTON CHURCHMEN WOULD BAR 'RAG' DANCE

**STOCKTON, July 11.**—The churchmen and civic workers of San Joaquin county have decided to taboo the society rag dance, and they have come about it in a manner that has caused alarm among the most ardent lovers of the art. The Local Council has been petitioned by the First Methodist church and the Women's Christian Temperance Union of that city to pass an ordinance prohibiting any dance with a "backward" movement as prejudicial to the morals of the community.

It seems that neither the civic workers nor the churchmen are seriously opposed to dancing as long as the participants move forward, but when it comes to the artistic backward fling, with all its suggestive movements, they object. They believe in calling a halt. Rev. E. B. Winning, who presented the petition for the church, declared that the popularity of the rag dance was increasing and that it had passed from a harmless state and was bordering on absolute immorality.

## Motherhood

The highest point of woman's happiness is reached only through motherhood. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. In Mother's Friend is to be found a medicine of great value to every expectant mother. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information.

# MELROSE CITIZENS FORM LEAGUE

### Organization Pledged to Support Administration and Oppose Recall.

MELROSE, July 11. — Public spirited men and women of this community organized the Melrose Progressive League, which has pledged itself to support the administration and oppose the recall of George Ingraham. The first meeting was held here August 5. At the initial meeting of the society, held at the home of George Ingraham 1845 First, three were elected officers, to wit: Joseph Mathena, president; Charles Eldraher, secretary; and Robert Mathena, sergeant-at-arms. During the evening speeches were delivered by Joseph Mathena, Helena V. Kuchinski, Charles Eldraher, Clara Mazur, Joseph Mathena, and Joseph Kuckuck. The following were the names of the ladies: Ida Ingraham, Felix Kuchinski and George Ingraham.

After considerable discussion, the following resolutions were adopted: That the petitioners and the commissioners, were adopted

Baccus and Frederick C. Turner, commissioners, all of the city of Oakland, will result in an election being held on the 5th day of August, 1912, for the pur-

respective positions, and,  
Whereas After a careful and just consideration of the facts and statements set forth in the recall petitions and reasons given for the same, we cannot in good conscience support or recommend the recall, and,  
Whereas, This league is not formed for the purpose of supporting the interests of any particular individual or office, but for the best interest of the community at large, and,  
Whereas, The city officials having commenced several large and intricate problems and improvements for the advancement of our city in which the citizens and one of the principal qualifications, and,  
Whereas, By the election of a new set of city officials, the interests of the city would endanger the carrying out of these improvements and cause many and great

Resolved, That for the above reasons set forth and without criticism or favor for or against any person or persons:

to earnestly work and use every honorable means at our command to replace the incumbents and to spend our time and money in making this matter before the people of our district and the entire public at large that they may be enabled to act and vote honestly and conscientiously for that which is to the best interest of our beautiful city at the election to be held on the 5th day of August, 1912.

The next meeting of the league will be conducted on Wednesday evening, July 26, at 1345 Fifth-third avenue.

## CHURCH WILL DELAY LETTING OF CONTRACT

BERKELEY, July 11.—Trinity Methodist church of this city expects to experience some delay before beginning the erection of a new building on the corner of Alston and Rev. S. D. Hutten, pastor, presided at the quarterly conference this week when it was discovered that the subscription for building funds did not warrant the immediate letting of a contract. Rev. C. B. Dalton, the pastor, is energetically engaged seeking funds for the church, planning also the raising of funds to liquidate a \$15,000 debt.

## HIGH SCHOOL EX MINATIONS.

BERKELEY, July 11.—An examination for admission to high school work for the August session will be held at the high school building. The examination will be held at the rooms of the Board of Education, July 31, and August 1 and 2. Superintendent M. C. James.

Fine lines, and that aged condition of the skin are caused by pore-clogging powders and creams. These should be discarded for a sprumax lotion which is made by adding a teaspoonful glycerine to 4 1/2 ounce of hazel (or hot water), then 4 ounces of sprumax. This lotion protects the skin against the ravages of sun and wind, removes tan, freckles, oiliness and wrinkles, and keeps the skin in the best of health. It is the only skin cream when on, lends an indefinable charm to the complexion.

An invigorating and pleasing shampoo for the heated term can be had by dissolving a teaspoonful of canthox throat lozenges in a quart of water. It creates an abundance of rich, cleansing lather, which is a positive benefit to any scalp and hair. After rinsing the hair, it dries quickly and leaves the scalp with a brilliant and silky softness truly charming. Canthox shampoo is used to restore the natural color to faded hair and overcome "straw" condition.
